

AI Health Assessment

Your assessment has been completed.

MODERATE RISK

The AI model indicates a moderate-risk pattern. Consider evaluation by an appropriate healthcare worker, especially if symptoms persist or worsen.

AI Risk Distribution

 LOW	17.88%
 MODERATE	42.57%
 HIGH	39.55%

What does this mean?

The MODERATE category is the model's predicted risk category for this assessment. Consider discussing the symptoms with an appropriate healthcare worker.

Healthcare Worker Assistance

The assessment indicates a moderate-risk pattern. Consider discussing your symptoms with an appropriate healthcare worker, especially if they persist or worsen.
